Money Set Aside for Wets.
During the committee's brief ex cursion into the affairs of the As sociation Against the Prohibition Amendment, the witness stand was occupied by Charles S. Wood of Pannsylvania, campaign manager

of the wet organization. He disclosed that \$1,200 had been se* aside by the association to work toward the holding of prohibition referendums in Montana and Nevada, but said none of the \$1,400 or \$1,500 raised recently by a volun-teer committee in Pennsylvania was spent in the Keystone state. Senator Reed, Republican, Pennsylvania, declared the large expenditures were due to the pri-mary system, and not to corruption. It would have cost more than a million dollars, he said, for each candidate in the primary to send one letter to each voter.

By Associated Press. Paris, July 1.—The French franctoday established another low recbeing quoted on the Bourse at 36.90 to the dollar and 179.30 to the ound.

Bourse circles were inclined to attribute the slump to the uncerain fate of the new Briand cabinet, the coolness with which the recent ministerial declaration was eceived and the persistent signs of conflict in parliament over the pressing financial ruin to face.

The new fall of the franc is due largely to the feeling in the United States that there is hostility in France toward ratification of the Federal prisons at Chamber of Deputies.

"I don't believe in hoboes. I believe that every man and each dollar ought to work in the town or city in which they live

"There are a lot of hobo dollars being sent out of Corsicana roaming over the country in search of better values and bargains, which could be put to work right here in Corsicana and their services would count—their buying power would be greater, its home circulation would count well in the making of a better city in which to live.

"The home dollar multiplies itself many times—at home—for community interests are mutual. The success of Corsicana contributes to the success o everybody in Corsicana. A properous city rests on individual prosperity. When a tramp dollar starts away from home after something that could be bought here, it is gone forever.
